

Comfort Dehumidifier TTK 60 E – 18L/24h

Due to the combination of high operating range, flexible two-stage fan, hygrostat control and powerful 0.47 kW compressor, the TTK 60 E is optimally suited for an agreeably silent dry keeping of living and office spaces.

This elegant room air dehumidifier impresses with the especially neat design of the control panel, which is easy to handle despite the manifold comfort functions.

The practical handle and easy-running wheels made of plastics allow you to change the application site for the dehumidifier TTK 60 E easily and quickly.

The control panel allows to select either a fully automatic or a permanent dehumidification process by means of the digital real-value humidity selection. Permanent dehumidification can even be operated unattended thanks to the option to connect a condensation drain hose. Thanks to the timer function a time-controlled application is also possible.

A few practical benefits

- Condensation dehumidifier
- Hygrostat-controlled automatic dehumidification with target value preselection between 35 and 80 % RH in increments of 5 %
- Once the desired humidity value has been reached, the compressor will switch off automatically. The fan coasts down and switches off with delay. The display does not switch off. When the value is exceeded, the unit is automatically activated.
- 2 fan stages
- LED control panel
- Permanent mode
- Timer function
- Laundry drying function
- Filter cleaning indicator
- Filling level warning light indicating a full water tank
- Overflow protection with automatic switch-off
- Automatic air circulation defrost system
- Connection for external condensation draining
- Quiet operation

Technical data

Dehumidification performance	At 30 °C / 80 % RH	16
	Max. [l/24h]	18
Air flow rate		100 m³/h
Min. temperature range [°C]		5
Max. temperature range [°C]		35
Min. humidity range		35
Max. Humidity range		95
Power Input		0.47 kW
Sound level		46 dB
Equipment		Electronic automatic defrost Non-stop dehumidification Electronic hygrostat Hydrostat - controlled Radial fan 2 Fan stages Overflow protection Filling warning light Switch-off time can be selected Laundry drying function Memory function Auto-restart function Display of the humidity level LED display
